**À NOTER : Les ateliers sont décrits dans la langue dans laquelle ils sont offerts.**

## Our Mission

To provide evidence-informed, high quality health care and health promotion, for mothers, newborns and families, for improved health and clinical outcomes. To provide care within an integrated, accountable and sustainable system, supported by an academic program of excellence, ensuring the best start to life for the children of Ontario Health East.

## A Word about Our Workshops

CMNRP is pleased to offer a variety of educational workshops. These are open to interprofessional perinatal care providers across Eastern and South Eastern Ontario, and from outside the region.

Workshop content is based on current literature, research evidence and recommendations from various professional associations. While workshops describe current standards of care, they are not intended to dictate exclusive courses of practice: rather, they provide a foundation and direction for perinatal care. Variations and innovations that improve the quality of patient care are encouraged.

A written acknowledgement of attendance will be issued to participants. These certificates of attendance are not to be used as proof of “certification” as CMNRP is not an official certification body.

In most workshops, participants complete a knowledge test so that they can receive immediate feedback on their learning. For confidentiality purposes, the marks are given directly to participants. Therefore, if the marks are required for follow-up or performance appraisals, managers should consult the individual participants. CMNRP is not responsible for the participants’ performance either during or following the programs, or for implementing remedial work. However, we are willing to consult with institutions to assist in that process.

---

## Notre mission

Promouvoir la santé et offrir des soins de santé de haute qualité et fondés sur des preuves aux mères, aux nouveau-nés et aux familles, en vue d’améliorer leur santé et les résultats cliniques. Offrir des soins au sein d’un système intégré, responsable et durable, dans les deux langues officielles, appuyés par un programme de formation d’excellence, assurant ainsi le meilleur départ dans la vie pour les enfants des RLISS tant de Champlain que du Sud-Est.

## Un mot à propos de nos ateliers

Le CMNRP est fier d’offrir une gamme d’ateliers. Ceux-ci visent les professionnels de la santé périnatale dans la région de l’est et du sud-est de l’Ontario, et venant de l’extérieur de la région.

Le contenu des ateliers de travail est basé sur la littérature courante, les preuves scientifiques et les recommandations de diverses associations professionnelles. Quoique les ateliers présentent les normes et pratiques exemplaires, ils ne visent pas à dicter qu’une seule approche à la pratique : ils offrent plutôt une fondation et une direction à la pratique des soins périnataux. Les variations et les approches innovatrices qui améliorent la qualité des soins offerts aux patient(e)s sont encouragées.

**À noter :** Les ateliers suivants sont disponibles en français, sur demande : Principes fondamentaux de la surveillance du bien-être fœtal et atelier de perfectionnement sur la surveillance du bien-être. Pour tous renseignements ou pour faire une demande d’atelier pour votre organisation, veuillez communiquer avec Catherine Gascon au [cgascon@cmnrp.ca](mailto:cgascon@cmnrp.ca)

Dans la plupart des ateliers, les participant(e)s complèteront un test de connaissance afin de recevoir une rétroaction immédiate sur leur apprentissage. Pour des raisons de confidentialité, les notes sont remises directement aux participant(e)s. Par conséquent, si les notes sont requises pour un suivi ou une évaluation de rendement, les gestionnaires devraient consulter le/la participant(e). Le CMNRP n’est pas responsable du rendement des participant(e)s durant ou après les ateliers, ni des mesures correctives qui peuvent

s'avérer nécessaires. Par contre, nous pouvons être consultés afin d'assister dans ce processus.

## ACUTE CARE OF AT-RISK NEWBORNS (ACoRN) PROVIDER

<b>TARGET AUDIENCE</b>	This 2-day workshop is intended for all practitioners involved in the care of newborns including physicians, nurses, midwives and respiratory therapists, who want to learn concepts of neonatal assessment and stabilization using ACoRN's framework and resources.
<b>DESCRIPTION</b>	<p>ACoRN is a 'logical, system-based approach to gathering and organizing clinical information, establishing priorities, and intervening appropriately for infants who are unwell, or at risk for becoming unwell, in the first few hours or days post-birth' (ACoRN, 2021, p. 26).</p> <p><b>Day 1:</b> Review the concepts, process and content of the ACoRN program, highlighting 2nd edition updates and resources (Textbook, Essential Guide and Laminates). Didactic and simulation-based learning strategies will be used. Learners will participate in simulation-based scenarios and debriefing sessions.</p> <p><b>Day 2:</b> Building on Day 1, learners will be given opportunities to solidify ACoRN knowledge and concepts by participating in additional and more comprehensive simulation-based scenarios and debriefing sessions.</p> <p>PREREQUISITES: Participants who, as part of their professional role, are expected to identify or care for at-risk or unwell infants are welcome to attend as long as the following <a href="#">CPS ACoRN registration guidelines</a> are met:</p> <ul style="list-style-type: none"> <li>• Be a licensed or regulated healthcare professional, or student of same and;</li> <li>• Provide proof of current CPS NRP Provider, Instructor or Instructor Trainer status (Lessons 1-11 and Advanced ISSA)</li> </ul>
<b>OBJECTIVES</b>	<ul style="list-style-type: none"> <li>• Demonstrate knowledge of the concepts and content of ACoRN.</li> <li>• Describe how the ACoRN Process and its various components are used to conduct a systematic evaluation of and organize care for at-risk or unwell newborns.</li> <li>• Identify ACoRN tools and resources that facilitate the care of at-risk or unwell newborns.</li> <li>• Develop working diagnoses and initiate treatments for specific neonatal conditions.</li> <li>• Describe the types of support that may be required for the infant, the family and the health care team.</li> <li>• Identify and prepare infants for transport to a referral facility.</li> <li>• Utilize the ACoRN Process during a simulation-based learning opportunity to provide care for an at-risk or unwell infant.</li> </ul>
<b>PREPARATION/ HANDOUTS</b>	<p><b>Mandatory</b> preparation for the workshop includes review of the ACoRN Essential Guide and ACoRN laminates as well as successful completion of the online ACoRN exam; the ACoRN textbook (2<sup>nd</sup> edition, 2021) should be available to all teams who register but is not a mandatory resource.</p> <p>Participants must successfully complete the <a href="#">online examination</a> (if not completed within 12 months of the course) and submit the 'Online Examination Certificate' prior to the workshop.</p>
<b>NOTES</b>	<p><b>SPECIAL NOTE:</b> ACoRN workshops will be offered in Ottawa and/or South East. Like resuscitation, stabilization of at-risk of unwell newborns is most effective when performed by a coordinated, interprofessional team. In keeping with this philosophy, priority will be given to organizations who register a minimum of 3 participants representing an interprofessional team (i.e., MD, RN, RM, RRT etc.).</p> <p>A limited number of workshops will be offered 'on-site' to centres with an interprofessional audience. Each request will be considered on a first-come first-serve basis and be contingent upon registration and availability of the ACoRN faculty. Centres are encouraged to invite community partners to participate in the workshop. The details of the workshop, including dates, location, number of participants and fees will then be negotiated.</p>
<b>CONTACT</b>	For further information or to request an ACoRN workshop for your organization, contact CMNRP at <a href="mailto:cmnrpinfo@cmnrp.ca">cmnrpinfo@cmnrp.ca</a> .

# HUMAN MILK FEEDING: BEST PRACTICES FOR HEALTH CARE PROVIDERS

<b>TARGET AUDIENCE</b>	This workshop is intended for all practitioners involved in the care of mothers and newborns in hospital and community settings.
<b>DESCRIPTION</b>	<p><b>Location:</b> Blended learning (online and Zoom)</p> <p><b>Event description and format:</b></p> <p>This workshop will be offered in a blended learning format and consists of <b>3 parts</b>:</p> <ol style="list-style-type: none"> <li>1. Participants must complete a FREE online learning module: <a href="#">Supporting Mothers and Babies: Understanding Breastfeeding and the Baby Friendly Initiative</a>. The ‘Certificate of Achievement’ <b>must be submitted at least 2 working days prior to attending the workshop</b>. Estimated time 2-4 hours.</li> <li>2. Online modules (using Google Classroom) to be completed independently prior to the afternoon session. Estimated time 3-4 hours.</li> <li>3. Participation in a 4 hour interactive Zoom videoconference session during the afternoon of the workshop.</li> </ol> <p>This workshop and all of its components provide a portion of the education required for the Baby Friendly Initiative (BFI) certification.</p>
<b>OBJECTIVES</b>	<ul style="list-style-type: none"> <li>• Review the history of breastfeeding and ways in which societal influences can impact breastfeeding.</li> <li>• Describe the principles of the Baby Friendly Initiative.</li> <li>• Identify factors that influence parents’ decision to breastfeed.</li> <li>• Describe the various benefits of breastfeeding, including the unique properties of human milk for infants.</li> <li>• Describe physiology of milk production including physiological changes of the breast in relation to milk production and transfer.</li> <li>• Identify the key principles for successful breastfeeding.</li> <li>• Identify common breastfeeding positions.</li> <li>• Recognize correct latch and effective sucking at the breast.</li> <li>• Identify key components of a breastfeeding assessment.</li> <li>• Summarize normal behaviour and growth parameters of breastfed infants.</li> <li>• Describe prevention and management of common breastfeeding complications.</li> <li>• Review basic information on medications and breastfeeding.</li> <li>• Discuss parent education and support pre-discharge and post-discharge.</li> <li>• Identify resources for the breastfeeding mother and family.</li> <li>• Identify resources available for health care professionals to access breastfeeding information.</li> </ul>
<b>PREPARATION/ HANDOUTS</b>	<ul style="list-style-type: none"> <li>• Participants must complete <a href="#">the Best Start Healthy Mothers Healthy Babies Breastfeeding</a> free online course and submit the ‘Certificate of Achievement’ at least 2 working days prior to the workshop.</li> <li>• Participant resources to be downloaded upon registration.</li> </ul>

# FETAL HEALTH SURVEILLANCE (FHS) PROGRAM

PROGRAM LEVEL	FUNDAMENTALS	REFRESHER
TARGET AUDIENCE	<p><b>Fundamentals:</b> This program is intended for interprofessional health care providers who want to learn, review and apply <i>fundamental</i> concepts related to fetal health surveillance in labour.</p>	<p><b>Refresher:</b> This program is intended for interprofessional health care providers with previous FHS education and clinical experience with a strong foundation of knowledge and skills in intrapartum fetal surveillance. A minimum of 1 year experience is suggested. <b><i>This course is not appropriate for the inexperienced practitioner. This workshop is available by special request.</i></b></p>
DESCRIPTION	<p>The Fundamentals of FHS Program consist of <b>2 parts:</b></p> <ol style="list-style-type: none"> <li>1) Review of the online <a href="#">Fundamentals of Fetal Health Surveillance – A Self-Learning Manual</a> and successful completion of the Canadian Fetal Health Surveillance (FHS) Online Exam is required prior to attending the workshop.</li> <li>2) Attendance and participation in the workshop</li> </ol> <p>The exam certificate must be sent to CMNRP 2 working days prior to the workshop. You will not be able to attend the workshop without submitting the certificate.</p> <p>The Canadian Fetal Health Surveillance (FHS) Online Exam is available for purchase under the Final Evaluation tab in the online Fundamentals of Fetal Health Surveillance – A Self-Learning Manual. The cost of the online exam (30\$) is not included in the price of the workshop.</p> <p><b>Please note the reading of the online manual and completion of the online exam may take you up to 12 hours, please plan accordingly.</b></p>	<p>The Refresher of FHS Program consist of <b>2 parts:</b></p> <ol style="list-style-type: none"> <li>1) Review of the online <a href="#">Fundamentals of Fetal Health Surveillance – A Self-Learning Manual</a> and successful completion of the Canadian Fetal Health Surveillance (FHS) Online Exam is required prior to attending the workshop.</li> <li>2) Attendance and participation in the workshop</li> </ol> <p>The exam certificate must be sent to CMNRP 2 working days prior to the workshop. You will not be able to attend the workshop without submitting the certificate.</p> <p>The Canadian Fetal Health Surveillance (FHS) Online Exam is available for purchase under the Final Evaluation tab in the online Fundamentals of Fetal Health Surveillance – A Self-Learning Manual. The cost of the online exam (30\$) is not included in the price of the workshop.</p> <p><b>Please note the reading of the online manual and completion of the online exam may take you up to 12 hours, please plan accordingly.</b></p>
OBJECTIVES	<ul style="list-style-type: none"> <li>• Describe the Canadian recommendations for fetal health surveillance during labour.</li> <li>• Identify the definitions, characteristics, etiology, physiology/pathophysiology of IA, intrapartum EFM and NST findings.</li> <li>• Apply FHS classification and interpretation to IA, intrapartum EFM and NST findings within the whole clinical picture for decision making.</li> <li>• Describe the appropriate clinical management/response for prevention and/or correction of abnormal IA, atypical/abnormal intrapartum EFM, and NST findings.</li> <li>• Describe antenatal surveillance techniques including fetal movement counting, NST, and biophysical profile.</li> <li>• Discuss teamwork, communication and documentation as they relate to fetal health surveillance and perinatal outcomes.</li> </ul>	<ul style="list-style-type: none"> <li>• Describe various methods of intrapartum fetal assessment with emphasis on intermittent auscultation and electronic fetal surveillance.</li> <li>• Explain maternal-fetal physiology and pathophysiology.</li> <li>• Discuss the clinical management of FHR interpretation.</li> <li>• Identify strategies to mitigate risks through improved interdisciplinary communication, collaboration and management.</li> </ul>
EVALUATION	<p><b>Successful completion</b> of the Canadian Fetal Health Surveillance (FHS) Online Exam within 30 days of the Workshop.</p>	<p><b>Successful completion</b> of the Canadian Fetal Health Surveillance (FHS) Online Exam within 30 days of the Workshop.</p>

# FETAL HEALTH SURVEILLANCE (FHS) PROGRAM

PROGRAM LEVEL	INSTRUCTOR
<b>TARGET AUDIENCE</b>	<p>This program is intended for expert practitioners who wish to teach the FHS Fundamentals and Refresher workshops.</p> <p><b>PRE-REQUISITES:</b></p> <ul style="list-style-type: none"> <li>• In-depth knowledge of and clinical expertise related to fetal health surveillance with a minimum of 2 years intrapartum clinical experience</li> <li>• Current and ongoing related clinical practice</li> <li>• A letter of support from the candidate’s sponsoring facility/organization</li> <li>• Candidate Letter of intent</li> </ul> <p><i>Applications will be reviewed and Instructor Candidates will be informed if they have been accepted into the workshop.</i></p>
<b>DESCRIPTION</b>	<p><b>PREPARATORY WORK</b></p> <p>Review of the online <a href="#">Fundamentals of Fetal Health Surveillance – A Self-Learning Manual</a> and successful completion of the Canadian Fetal Health Surveillance (FHS) Online Exam is required prior to attending the workshop.</p> <p>The workshop certificate must be sent to CMNRP 2 working days prior to the workshop. You will not be able to attend the workshop without submitting the certificate.</p> <p>The Canadian Fetal Health Surveillance (FHS) Online Exam is available for purchase under the Final Evaluation tab in the online Fundamentals of Fetal Health Surveillance – A Self-Learning Manual. The cost of the online exam (30\$) is not included in the price of the workshop.</p> <p><b>Please note the reading of the online manual and completion of the online exam may take you up to 8 hours. Additional pre-workshop readings will be sent after acceptance to the Workshop. These may take you up to 8 hours to read. Please plan accordingly.</b></p> <p>This <b>two-day</b> Instructor program consists of:</p> <p><b>Day 1:</b> Participation in the FHS Fundamentals Program as an Instructor-Candidate to observe how the workshop is taught and note teaching strategies, which are discussed on Day 2.</p> <p><b>Day 2:</b> Participation in the FHS Instructor workshop. Candidates must prepare a 10-minute presentation for the microteaching session. Further details provided after acceptance.</p>
<b>OBJECTIVES</b>	<ul style="list-style-type: none"> <li>• Review the fundamental concepts and the literature related to FHSL</li> <li>• Observe and note how the FHSL Fundamentals workshop is taught</li> <li>• Review adult learning principles and strategies to facilitate adult learning</li> <li>• Describe the key concepts to cover when teaching the FHSL Fundamentals workshop</li> <li>• Discuss various logistical issues related to planning and teaching the workshop</li> <li>• Demonstrate the ability to teach/facilitate a short presentation</li> </ul>
<b>EVALUATION</b>	<p><b>Successful completion</b> of the Canadian Fetal Health Surveillance (FHS) Online Exam within 12 months of the Workshop. Instructor and participants’ feedback of microteaching sessions provided to each Instructor-Candidate on Day 2.</p>
<b>CONTACT</b>	<p>Catherine Gascon at <a href="mailto:cgascon@cmnrp.ca">cgascon@cmnrp.ca</a> or Lauren Rivard at <a href="mailto:larivard@cmnrp.ca">larivard@cmnrp.ca</a></p>

# LABOUR SUPPORT

<b>TARGET AUDIENCE</b>	This <b>one-day (in-person)</b> workshop is intended for perinatal care practitioners (e.g., nurses, physicians, midwives, doulas) who want to learn and apply the concepts and techniques of labour support.
<b>OBJECTIVES</b>	<ul style="list-style-type: none"><li>• Review what contributes to positive and negative birth experiences.</li><li>• Review current recommendations about labour support.</li><li>• Discuss the latest research evidence about labour support.</li><li>• Review and discuss various support techniques through the different stages of labour, emphasizing non-pharmacologic methods of pain relief.</li><li>• Review various movements and positions for labour and birth and discuss how they can influence birth outcomes.</li></ul>
<b>PREPARATION</b>	<ul style="list-style-type: none"><li>• There is no pre-reading for this workshop.</li><li>• Participant handout to be downloaded upon registration and brought to the workshop.</li></ul>
<b>CONTACT</b>	Catherine Gascon: <a href="mailto:cgascon@cmnrp.ca">cgascon@cmnrp.ca</a>  Lauren Rivard: <a href="mailto:larivard@cmnrp.ca">larivard@cmnrp.ca</a>

## NEONATAL RESUSCITATION PROGRAM (NRP)

PROGRAM LEVEL	ADVANCED PROVIDER
TARGET AUDIENCE	This program is intended for interprofessional health care providers or students of same who require NRP for their current work.
DESCRIPTION	<p>The Neonatal Resuscitation Program is a <b>one-day (in-person)</b> workshop that consists of <b>2 parts</b>:</p> <ul style="list-style-type: none"> <li>• Review of the <b>8<sup>th</sup> edition <i>Textbook of Neonatal Resuscitation (2021)</i> and successful completion of the CPS NRP online ADVANCED examination is required <u>prior</u></b> to attending the workshop.</li> <li>• Participation in the workshop including skills stations, advanced integrated skills station assessment (ISSA) and a simulation and debriefing exercise.</li> </ul> <p>As of February 1, 2022, the online exam will be available for purchase from RQI through the Canadian Paediatric Society (CPS) at <a href="http://www.cps.ca/en/nrp-prn">http://www.cps.ca/en/nrp-prn</a></p>
OBJECTIVES	<ul style="list-style-type: none"> <li>• Perform initial steps, bag &amp; mask ventilation, chest compressions, assist with and/or intubate, calculate medication dosages</li> <li>• Demonstrate awareness of the unique challenges presented by the preterm infant</li> <li>• Demonstrate communication and teamwork, in addition to appropriate interventions, in a variety of resuscitation scenarios</li> <li>• Participate in a simulation and debriefing exercise</li> </ul>
PREPARATION/ HANDOUTS	<p>Review the <b>8<sup>th</sup> edition <i>Textbook of Neonatal Resuscitation (2021)</i></b></p> <p><b>Participants must:</b></p> <ol style="list-style-type: none"> <li>1. Complete the online <b>ADVANCED</b> NRP exam <u>within 30 days</u> prior to the workshop, and</li> <li>2. Submit the 'Online Examination Certificate' <u>at least 2 working days prior to the workshop</u>.</li> </ol>
EVALUATION	<p><b>Successful completion of:</b></p> <ol style="list-style-type: none"> <li>1. Online examination</li> <li>2. Performance skill stations</li> <li>3. Integrated skills stations (including ADVANCED ISSA evaluation)</li> <li>4. Simulation and debriefing exercise</li> </ol> <p><b>Successful completion of all of the above is required to receive a CPS NRP Provider card.</b></p>
NOTES	The simulation and debriefing exercise may be videotaped for educational purposes. A consent form will be circulated.
CONTACT	Lauren Rivard: <a href="mailto:larivard@cmnrp.ca">larivard@cmnrp.ca</a>

## NEONATAL RESUSCITATION PROGRAM (NRP)

PROGRAM LEVEL	INSTRUCTOR
<b>TARGET AUDIENCE</b>	This <b>2-day (in-person)</b> program is intended for <b>expert-level</b> practitioners who are supported by their institution and wishes to develop teaching skills in neonatal resuscitation.
<b>DESCRIPTION</b>	<p><b>Day 1:</b> Apply principles of adult learning and development of content included in the Canadian Paediatric Society (CPS) NRP Provider course, including the creation and implementation of simulation-based learning experiences: Performance Skills Stations, Integrated Skills Stations and simulation-based scenarios for evaluation and debriefing.</p> <p><b>Day 2:</b> Building upon Day 1, candidates will have opportunities to hone their newly acquired skills. Return demonstrations, simulation, debriefing and feedback will be the focus of the learning. Finally, discussion of the roles and responsibilities of CPS NRP Instructors and logistics of running CPS NRP Provider courses will be discussed.</p> <p><b>PREREQUISITES: Instructor candidates must have relevant and ongoing perinatal and/or neonatal clinical experience, and:</b></p> <ul style="list-style-type: none"> <li>• Proof of current <b>CPS NRP ADVANCED PROVIDER</b> status with successful completion of <b>Lessons 1-14 including:</b></li> <li>• Successful completion of an NRP Provider course with an advanced ISSA at least 12 months prior to the Instructor course</li> <li>• Successfully complete the 8<sup>th</sup> edition ADVANCED NRP online exam within 12 months of the Instructor course.</li> <li>• In-depth knowledge of and clinical expertise related to newborn care and resuscitation,</li> <li>• Current and ongoing related clinical practice,</li> <li>• A Letter of Support from the candidate’s manager at their sponsoring facility/organization, and</li> <li>• Candidate Letter of Intent</li> </ul> <p><i>Applications will be reviewed and Instructor Candidates will be informed if they have been accepted into the workshop.</i></p>
<b>OBJECTIVES</b>	<ul style="list-style-type: none"> <li>• Demonstrate awareness of adult learning principles &amp; strategies to facilitate learning.</li> <li>• Develop clinical scenarios and demonstrate ability to evaluate and provide feedback to learners.</li> <li>• Demonstrate knowledge of principles of simulation-based learning and debriefing.</li> <li>• Describe the roles and responsibilities of a hospital-based Instructor.</li> <li>• Describe the role of CPS in supporting NRP in Canada.</li> </ul>
<b>PREPARATION/ HANDOUTS</b>	<ul style="list-style-type: none"> <li>• Review the <b>8<sup>th</sup> edition Textbook of Neonatal Resuscitation (2021)</b>_</li> <li>• Instructor candidates <b>must</b> complete the online 8<sup>th</sup> edition examination (if not already completed within 12 months of the course) and submit the ‘Online Examination Certificate’ as part of their application package.</li> <li>• Additional preparatory reading will be provided in advance of the workshop.</li> </ul> <p>Participants will translate the pre-reading material into practice and develop content, facilitate skill acquisition and evaluate learners in the required components of a CPS NRP Provider workshop including Performance Skills Stations, Integrated Skills Station and Simulation and Debriefing.</p> <p>Learners must have in-depth knowledge of NRP content, curriculum, current updates, Canadian recommendations and practice changes, prior to attending this workshop.</p>
<b>EVALUATION</b>	Instructor candidates must successfully complete at least 1 ‘ <b>team teach</b> ’ component with an Instructor Trainer [IT] or Delegate before they can be registered with CPS. Candidates need to provide the name of a potential IT or Delegate with whom they will complete their ‘team-teach’ sessions at the workshop. After successful completion of all components, candidates then register and submit payment to CPS.
<b>NOTES</b>	<u>Attendance at the workshop does not imply successful completion or the ability to register with CPS.</u>
<b>CONTACT</b>	Lauren Rivard: <a href="mailto:larivard@cmnrrp.ca">larivard@cmnrrp.ca</a>

## PERINATAL LOSS

<b>TARGET AUDIENCE</b>	This program is intended for providers who care for families who experience perinatal loss (e.g. nurses, social workers, chaplains, midwives, genetic counselors, physicians, child life specialists, public health nurses, and funeral directors).
<b>DESCRIPTION</b>	<p><b>Location:</b> Blended learning (online and Zoom)</p> <p><b>Event description:</b> This workshop provides a solid foundation of theoretical and clinical knowledge to facilitate effective care of families experiencing a perinatal loss. This workshop also addresses the potential effects of perinatal loss on practitioners as a result of caring for bereaved families. When possible, a parent with lived experience will provide a guest presentation.</p> <p><b>Format:</b></p> <p>This workshop will be offered in a blended learning format and consists of <b>2 parts</b>:</p> <ol style="list-style-type: none"> <li>1. Online modules (using Google Classroom) to be completed independently prior to the Workshop. Estimated time 3-4 hours.</li> <li>2. Participation in a 4-hour interactive Zoom videoconference session during the afternoon of the Workshop.</li> </ol>
<b>OBJECTIVES</b>	<ul style="list-style-type: none"> <li>• Describe different types of perinatal losses and outline the grief process.</li> <li>• Explore the significance of perinatal loss in the lives of childbearing families.</li> <li>• Discuss the role of care providers including specific interventions to support bereaved families.</li> <li>• Identify the challenges associated with providing support to bereaved families.</li> <li>• Identify self-care strategies for care providers and other members of the health care team who are affected by loss.</li> <li>• Identify resources available for parents and caregivers.</li> </ul>
<b>PREPARATION</b>	<ul style="list-style-type: none"> <li>• Participant resources to be downloaded upon registration.</li> </ul>
<b>CONTACT</b>	<p>Catherine Gascon: <a href="mailto:cgascon@cmnrp.ca">cgascon@cmnrp.ca</a>, or</p> <p>Lauren Rivard: <a href="mailto:larivard@cmnrp.ca">larivard@cmnrp.ca</a></p>

## SUBSTANCE USE IN THE PERINATAL PERIOD

<b>TARGET AUDIENCE</b>	This workshop is intended for interprofessional health care providers and social service providers who care for childbearing families during pregnancy and postnatal periods.
<b>DESCRIPTION</b>	<p><b>Location:</b> Blended learning (online and Zoom)</p> <p><b>Event description:</b> This workshop provides a solid foundation for evidence-based, person-centred, trauma-informed, and culturally safe care for pregnant and postnatal people who use substances as well as best practices related to the care of their newborns.</p> <p><b>Format:</b></p> <p>This workshop will be offered in a blended learning format and consists of <b>3 parts</b>:</p> <ol style="list-style-type: none"> <li>1. Participants must complete <b>Module 1. Principles of Care</b> of the FREE online learning course <a href="#">Perinatal Substance Use</a> available through the University of British Columbia Faculty of Medicine Continuing Professional Development <u>at least 2 days prior to the workshop</u>.</li> <li>2. Online modules (using Google Classroom) to be completed independently prior to the Workshop. Estimated time 3-4 hours.</li> <li>3. Participation in a 4-hour interactive Zoom videoconference session during the afternoon of the Workshop.</li> </ol>
<b>OBJECTIVES</b>	<ul style="list-style-type: none"> <li>• Identify prevalence rates of the most common substances used during pregnancy.</li> <li>• Summarize key risk factors associated with substance use during pregnancy and potential implications for maternal and fetal/neonatal well-being.</li> <li>• Discuss the issue of stigma surrounding substance use and addictions and explore how it serves as a significant barrier to accessing appropriate services both pre- and postnatally.</li> <li>• Review evidence-based strategies to support substance-involved families across the perinatal continuum.</li> <li>• Increase knowledge of community resources.</li> <li>• Review recommendations related to lactation and substance use.</li> <li>• Discuss evidence-based care of the newborn at-risk for or diagnosed with Neonatal Abstinence Syndrome (NAS).</li> <li>• Identify best practices in planning for safe transitions.</li> </ul>
<b>PREPARATION/ HANDOUTS</b>	<ul style="list-style-type: none"> <li>• Participants must complete <b>Module 1. Principles of Care</b> of the FREE online learning course <a href="#">Perinatal Substance Use</a> available through the University of British Columbia Faculty of Medicine Continuing Professional Development <u>at least 2 days prior to the workshop</u>.</li> <li>• Participant resources to be downloaded upon registration.</li> </ul>

# REGISTRATION INFORMATION

## REGISTRATION

- To register: Visit [www.cmnrp.ca](http://www.cmnrp.ca)
- Registration will be confirmed once payment of applicable fees is received by our office.
- Instructions and workshop materials (where applicable) will be provided at least two weeks in advance of the workshop date.

## CANCELLATION POLICY

- Cancellation notice must be sent to [cmnrpinfo@cmnrp.ca](mailto:cmnrpinfo@cmnrp.ca) at least **two weeks** prior to a workshop.
- Insufficient cancellation notice (within **2 weeks** of workshop) is subject to a \$50 administrative fee.
- Due to the high demand and limited spaces for **NRP** and **FHS** workshops (e.g. Provider, Instructor or Refresher), if cancellation notice is not received prior to **two weeks** of the workshop, registration fees are **non-refundable**.
- Textbooks and manuals purchased for workshops are non-refundable.
- Administrative fees cannot be applied to another workshop.
- NSF cheques are subject to a \$50 fee.
- On occasion, there may be a need to cancel a workshop due to insufficient registration or extraordinary circumstances. When CMNRP cancels a workshop, participants will receive a full refund.
- Workshops are not cancelled due to inclement weather.

## PAYMENT INFORMATION

### **By Cheque:**

1. Complete the online registration.
2. Write a cheque or money order payable to

# INFORMATIONS SUR L'INSCRIPTION

## INSCRIPTIONS

- Pour vous inscrire : Visitez [www.cmnrp.ca](http://www.cmnrp.ca)
- Votre inscription sera confirmée une fois que notre bureau aura reçu le paiement des frais applicables.
- Les instructions détaillées sur l'atelier et les ressources connexes (le cas échéant) seront fournies au moins deux semaines avant la date de l'atelier.

## POLITIQUE D'ANNULATION

- Un avis d'annulation doit être reçu par [cmnrpinfo@cmnrp.ca](mailto:cmnrpinfo@cmnrp.ca) au moins **deux semaines** avant la tenue d'un atelier.
- Un avis d'annulation insuffisant (moins de 2 semaines avant l'atelier) est soumis à des frais administratifs de \$50.
- En raison de la forte demande et du nombre limité de places pour les ateliers **NRP** et **FHS** (p. ex. fournisseur, instructeur ou mise à jour), si l'avis d'annulation n'est pas reçu dans les **deux semaines** avant l'atelier, les frais d'inscription **ne sont pas remboursables**.
- Les manuels et les guides achetés pour les ateliers ne sont pas remboursables.
- les frais administratifs ne peuvent pas être appliqués à un autre atelier.
- Des frais administratifs de 50 \$ s'appliquent pour tout chèque sans provision.
- Il peut arriver qu'il soit nécessaire d'annuler un atelier en raison d'une inscription insuffisante ou de circonstances extraordinaires. Lorsque le CMNRP annule un atelier, les participants seront intégralement remboursés.
- Les ateliers ne sont pas annulés en raison de mauvais temps.
